

RESTRICTED

SECTION 2

ALL ARMS RESPONSIBILITIES

0201. All arms are required to:

- a. Recognize indications of unexploded air warfare missiles which are buried, and identify dangerous ones which are exposed.
- b. Know the procedure for reporting the presence of unexploded air-warfare missiles.
- c. Know what safety precautions to adopt pending the arrival of a bomb disposal party.
- d. Know how to remove certain of the safer unexploded missiles from the area occupied or controlled by the units to some suitable place to await demolition by Engineers. The designation of these missiles, which will probably include small incendiary bombs, AA shells, and aircraft cannon shells, will be published as soon after the start of a war as sufficient experience and data have been obtained.
