

SECTION 41 – THE DETAILED PLANNING SEQUENCE

0904. The more careful and accurate the planning, the better the road and the greater the saving in constructional effort. In hasty work in the combat zone, rapid field location may have to follow on the heels of reconnaissance, but the design procedure should always be as thorough as circumstances allow.

0905. The detailed planning sequence is:

- | | | |
|----|---------------------------|----------------|
| a. | Primary selection | : Section 42 |
| b. | Reconnaissance | : Section 43 |
| c. | Soil survey | : RESPB No 5D, |
| | Chapter 2 | |
| d. | Preliminary top survey | : Section 45 |
| e. | Paper location | : Section 46 |
| f. | Line location | : Section 47 |
| g. | Computation of earth work | : Section 28 |
| h. | Setting out | : Chapter 11 |
